Electioneer by Nose.

Until the last ten seconds it looked as though James R. Keene would add an Futurity to his list. Pope Joan had led from the post and seemed clear ly the master of De Mund.

Electioneer was running in the ruck and seemed out of it. Then the seeming miracle occurred. Speed flew into his long legs and in the last sixteenth he came through the bunch like an ex press train. With a most remarkable burst of speed he passed Yankee Girl and Peter Pan and was stilding along with De Mund.

A few more strides and he was neck and neck with the Pope. Fifty yards from the finish the Keene filly began o weaken and Electioneer put his nos ahead for a "poor man's victory" in

the greatest race of the year.
There was but one consolation for James R. Keene, and that was tinged with bitterness. Electioneer, the victor, the proudest two-year-old of 1906, was sired by Voter, one of the prize horses
